## TITLE INDEX

Analysing functional forms of stock returns, 221  
An assessment of risk and return: some empirical findings from the Hong Kong stock exchange, 105  
An empirical investigation of corporate dividend pay-out behaviour in an emerging market, 243

Calendar anomalies: some perspectives from the behaviour of the Israeli stock market, 57

Day-of-the-week effects: evidence from developing stock markets, 49

Demand for consumer borrowing in the UK, 1969-90, 11

Deregulation and market efficiency: evidence from the gilt-edged market, 125

Dynamics of the composition of household asset portfolios and the life cycle, 145

Econometric study on the Swiss-franc-dollar exchange rate, 237

Economies of scale and scope in UK building societies: an application of the translog multiproduct cost function, 211

Empirical analysis of pricing efficiency in the Hungarian capital markets, 63

Evaluating inflation forecasts derived from interest rate and time series models, 229

Evidence on the stochastic structure of exchange rates in the interwar period, 99

Hungary: the initial stages in the financial sector reform of a socialist economy in transition, 33

Information risk and initial public offerings: an empirical investigation, 93

Interest rate risk management with futures for financial intermediaries, 179

Internal performance features of UK building societies and their effect on organizational structure, 199

Macroeconomic events and seasonality of risk and returns, 205

Predictability, trends and seasonalities: an empirical analysis of UK investment trust portfolios 1970-1989, 161

Source of the *Value Line* enigma, 173

Swedish stocks, bonds, bills and inflation (1919-1990), 79

Technical and scale efficiency in UK building societies, 1  
The causal relationship between stock index futures and cash index prices in Hong Kong, 187

The cost of equity capital and the risk premium on equities, 21

The form of time variation of systematic risk: some Australian evidence, 191

The impact of financial innovations on the demand for money in the UK and Canada, 115

The international transmission of stock market fluctuations between the developed markets and the Asian-Pacific markets, 43

The size effect: a multiperiod analysis, 87
